DIVINE CREAM

A new, exceptional, complete anti-aging cream

WITH ORGANIC IMMORTELE ESSENTIAL OIL

A regenerating cream, a pure elixir of immortelle and myrtle,
for skin that glows with youth.

L'OCCITANE
EN PROVENCE

On Corsican lands, L'OCCITANE discovered treasures with remarkable powers of longevity and regeneration. Now it has brought them together in its DIVINE cream...

IMMORTELLE: a flower that never wilts

Immortelle, the golden sun...

This wild and mysterious flower from Corsica never wilts, and yields a miraculous essential oil – a precious elixir of youth.

Proven effectiveness*: restores substance to the skin

- Restructures and firms the dermis: it stimulates the production of collagen (multiplied by 6*), improving firmness and smoothness.
- Cellular vitality: boosts skin's microcirculation*, enhancing its radiance.
- Powerful anti-free radical action*: limits oxidative stress, responsible for the premature aging of cells.

*In vitro test.

MYRTLE: a source of vitality

The "angelic" powers of the myrtle...

Myrtle is a Mediterranean shrub that can live for up to 300 years due to its outstanding regenerating powers.

Proven effectiveness*: prolongs cellular youth

L'OCCITANE has shown that myrtle essential oil stimulates the production of the SIRT- 1 protein – also known as the "longevity protein" - within the dermis. In doing so, it enables mature fibroblasts to recover the dynamism of young cells by up to 93%*.

It therefore helps to restore the energy and vitality of young skin and slow down the skin-aging process.

*In vitro test.
